EDUCATION

Arlington, Texas (2015 - 2018)

University of Texas at Arlington

Bachelor of Communication Technology.

SUMMARY

Hi There! I'm Josh, a Dallas-based Front End Developer with a knack for programming and design. My passion comes from bringing together each aspect of the customer journey across both development and design processes. I focus on creating production ready applications utilizing UX principals with scalable clean code.

EXPERIENCE

Dallas, Texas (2019 - current)

Front End Developer at Imaginuity

- Developed the entire Front End for multiple high traffic websites
stallionoilfield.com, uptexas.org
- Made web enhancements and landing page's for multiple businesses
webuyuglyhouses.com, homevestors.com, advancia.org, etc....
- Maintained 10 React based themes responsible for over 50 established malls
visithalcyon.com, liberty-center.com, windwardcity.com, etc...
- Designed and integrated page templates utilizing a CMS (WordPress / Kentico)

Carrollton, Texas (2017 - 2018)

Freelance Web Development and Marketing at Creative Revolt

creativerevolt.com

- Revamped the design with a bolder color palette / layout
- Created the landing page and multiple sections utilizing WordPress (DiviBuilder)
- Performed website updates and executed content audits
- Adjusted the website for SEO and created marketable advertisements (Canva / Google Analytics)

PROJECTS

Svelte, Sapper, JavaScript, Rollup, SASS, HTML

Personal Portfolio

joshuaroper.com

I created a personal portfolio website to showcase all of my recent works. I utilized advanced CSS animations, Svelte, and a static Sapper build.

JavaScript, jQuery, WebPack, SASS, Foundation, HTML, PHP, WordPress

Stallion

stallionoilfield.com

I was tasked with being the Lead Front End Developer on a complete website rebuild. I created multiple advanced components with an emphasis on clean code, and modularity.

HTML, CSS, JavaScript, JQuery, WordPress, DiviBuilder

Creative Revolt

creativerevolt.com

This was a freelance project to completely rework the layout and tailor the feel of the website to her personal writing style. I revamped the color palette to better match her personality, adjusted for SEO, and created multiple pages across the platform.

React, React Static, JavaScript, WebPack, SASS, JSX, WordPress

Halcyon

visithalcyon.com

As one of the Front End Developers on the project I was tasked with creating the movies, and events directory. I worked with multiple API's, React Static, and developed clean code.

JavaScript, jQuery, SASS, Foundation, HTML, Kentico (CMS)

University Park

uptexas.org

As the sole Front End Developer, I implemented multiple dynamic components, filtered search, form verification, and other API integrations.
