EDUCATION

Arlington, Texas (2015 - 2018)
University of Texas at Arlington
Bachelor of Communication Technology.

SUMMARY

Hi there! I'm Josh, a Dallas-based web developer with a knack for programming and design. My passion comes from bringing together each aspect of the customer journey across both development and design processes. I focus on creating production-ready applications utilizing UX principles with scalable, clean code.

EXPERIENCE

Dallas, Texas (March 2019 - current)
Front End Developer at Imaginuity
- Developed the entire front end for multiple high-traffic websites
  stallionoilfield.com, uptexas.org
- Made web enhancements and landing pages for multiple businesses
  webuyuglyhouses.com, homevestors.com, advancial.org, etc....
- Maintained 10 React-based themes responsible for over 100 established malls
  visithalcyon.com, liberty-center.com, windwardcity.com, etc...
- Designed and integrated page templates utilizing a CMS (WordPress / Kentico)

Carrollton, Texas (January 2017 - Febuary 2018)
Freelance Web Development and Marketing at Creative Revolt
creativerevolt.com
- Revamped the design with a bolder color palette / layout
- Created the landing page and multiple sections utilizing WordPress
- Performed website updates and executed content audits
- Adjusted the website for SEO and created marketable advertisements (Canva / Google Analytics)

PROJECTS

JavaScript, jQuery, WebPack, SASS, Foundation, HTML, PHP, WordPress
Stallion
stallionoilfield.com
I was tasked with being the lead front-end developer on a complete website rebuild. I created multiple advanced components with an emphasis on clean code and modularity.

React, React Static, JavaScript, WebPack, SASS, JSX, WordPress
Halcyon
visithalcyon.com
As a front-end developer on the project, I was tasked with creating the movies directory and the events directory. I worked with multiple APIs, React Static, and clean code.

JavaScript, jQuery, SASS, Foundation, HTML, Kentico (CMS)
University Park
uptexas.org
As the sole front-end developer, I implemented multiple dynamic components, filtered search, form verification, and other API integrations.

Svelte, Sapper, JavaScript, Rollup, SASS, HTML
Personal Portfolio
joshuaroper.com
I created a personal portfolio website to showcase all of my recent works. I utilized advanced CSS animations, Svelte, and a static Sapper build.

HTML, CSS, JavaScript, Jquery, WordPress, DiviBuilder
Creative Revolt
creativerevolt.com
This was a freelance project to completely rework the layout and tailor the feel of the website to the client's personal writing style. I revamped the color palette to better match her personality, adjusted for SEO, and developed pages across the platform.
